Ladies and Gentlemen!

As a classical liberal and an entrepreneur who has built PRESS GLASS company continuously for almost 30 years, I know how important freedom is. I have been supporting various freedom initiatives and think-tanks for a long time, but I decided that it is worth doing even more in this area. That is why I decided to create the Economic Freedom Foundation.

A well-functioning economy is not built only through business ventures. One should also support certain values and ways of thinking about the economy and politics. I am convinced that economic freedom, the rule of law and an open society are the best recipes for development, the improvement of people's living standards and peaceful cooperation.

Economic freedom, which is the subject of numerous attacks, will not defend itself. The Economic Freedom Foundation intends to strongly engage in the defense, promotion, and strengthening of liberal thought in Poland, which I also encourage you to do.

President of the Economic Freedom Foundation

WHAT WE DO

The Foundation supports projects in four focus areas that are important for freedom and development in Poland.

ECONOMIC FREEDOM

Economic freedom is important for development and creates good conditions for work, entrepreneurship and one's own life paths choices.

EDUCATION FOR THE FUTURE

We support modern education that focuses on the competences of the future and responds to the real needs of the population.

POLAND IN THE EUROPEAN UNION

We strive for a strong position of Poland in the European Union, in which the pillars should be a common market and the protection of fundamental rights and freedoms.

RULE OF LAW

The institutions of the rule of law guarantee individual freedoms, protect our fundamental rights, and safeguard individuals from the oppression of authority.

HOW WE WORK

Our mission is to invest in the most valuable initiatives for economic freedom and to create a space for cooperation and integration of free market advocates.

GRANT SYSTEM

The Economic Freedom Foundation invests in and empowers the most valuable initiatives for economic freedom. We search for projects that change reality in a liberal direction.

LIBRARY OF LIBERTY

We intend to bring together a unique book collection containing the most important items on freedom, including economic freedom, and liberal thought as a whole.

PUBLICATIONS

The Economic Freedom Foundation supports the creation of valuable content that reinforces liberal ideas in the public debate.

EDUCATION

We support educational projects and we are open to cooperation with students, scientists, universities and think-tanks.

EVENTS

The Economic Freedom Foundation organizes panels, debates and events on the most important economic topics and liberal thought.
